

GolfSafely Roof Upgrade Kit Installation

PREPARING THE DIVIDER

INSTALLING THE ROOF STRAPS

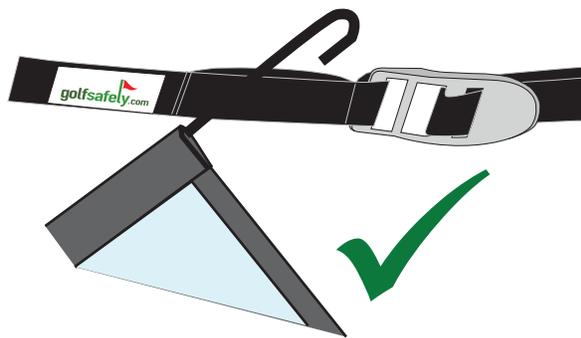

- 7** Loop the 2 attachment straps over and around the golf cart roof. Ensure the straps are not twisted and the GolfSafely logo is facing downward toward the seat. Space the straps to the approximate width of the divider, final adjustments can be made later.

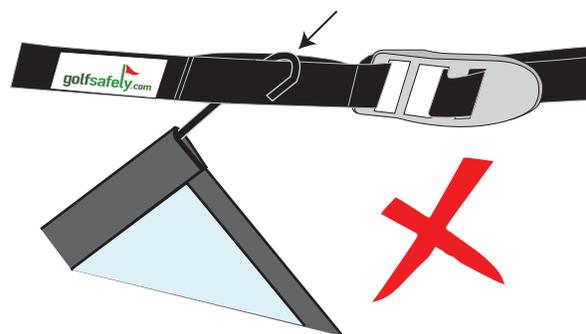

- 15** Insert metal rod into the loop of the roof strap. The loop is located between the ladder lock buckle and the GolfSafely logo. Do this to both sides.

The metal rod should gently rest in the loop pocket .

Avoid hooking the strap with any sideward tension

- 16** To ensure maximum life of the roof straps, avoid any tension or pulling of the metal rod on the straps. **The metal rod should gently rest in the loop pocket .**
- 17** Final adjustments can now be made
- Retighten the roof straps to avoid sagging
 - Centering /placement of the divider can be made by adjusting the roof straps

GolfSafely Premium Dividers Care & Maintenance

Cleaning

GolfSafely Dividers are made from an ultra clear durable Marine Grade Poly vinyl Chloride. It has exceptional UV resistance and can be cleaned using many household cleaning agents.

- Mild Detergents such as soap and water and/or Isopropyl Alcohol work well.
- Other mild sanitizing agents may work, test in a small area before use.

Care

- Avoid the rod from hooking/pulling onto the loop part of the roof strap, the rod should just lay on the strap, this put unnecessary stress on the strap.
- Tighten and tension the strap by pulling on the "looped strap" as per Step 8 in the instructions. Avoid pulling the strap toward the front and back part of the roof to provide tension.
- We recommend removing the divider in extreme weather conditions or high wind applications.
- We recommend golf course operators to advise all golfers/patrons using a divider that they are not to tamper or remove the divider.
- GolfSafely dividers can help prevent the spread of the disease by blocking respiratory droplets however it is not a fool proof method of protection against COVID-19 or other infectious diseases. Other precautions should be also be used.
- GolfSafely is not responsible for any improper usage, careless acts or any actions by the golf operators or its customers and patrons.
